ECE209AS (Fall 2025)
Computational Robotics

Prof. Ankur Mehta ⟨mehtank@ucla.edu⟩

Lecture 10 | Society, sociology, humanity, and other topics in robotics
Addendum to lecture videos

Towards the end of the lecture, I mention the impact of engineering on society. For a more detailed take on that question (through the lens of additional technological questions), also watch at least one of the following keynote lectures (~1hr each):

- Opportunities and challenges in robotics, RSS 2018 keynote (U. Michigan)
  - https://www.youtube.com/watch?v=R2p1xjdavns
- Trust, bias, society, and humanity, HRI 2020 keynote (GATech)
  - https://www.youtube.com/watch?v=SLkWSGJ93ug
